Was the level of education on the course appropriate for you?	<b>9.0</b>
How likely are you to adopt the products/techniques taught on the course?	<b>8.85</b>
<b>How likely are you to recommend the course to a colleague or friend?</b>	<b>9.3</b>

### Most appreciated points:

- High quality of faculty & scientific content
- Case presentations and quality of discussions
- Revision Video Surgery
- Group discussion – face to face discussion
- Good interaction between audience and faculty
  
- Talks/ Sessions:
  - o How to manage infected knees
  - o Diagnosis: Infection vs Aseptic loosening
  - o Single stage vs 2 stage revisions
  - o How to manage bone loss
  - o Extensor mechanism management

In conclusion, this course was really appreciated by the audience and we received lots of very positive feedbacks and comments. All the ingredients were there to be the best knee revision course of the year: a great interaction between participants and faculty and a high level of scientific talks.

### Points to improve:

- No practical session
- Provide a CD with all the presentations
- Long session on Day 1

Once again, we would like to thank you very warmly for your cooperation and implication in the organization of this challenging course.

We remain at your disposal should you need any further information,

Very kind regards

Patrice PIA  
Medical Education Manager  
West Europe

Ines PRIETO
